# About Trailmobile Part Numbers

A

We create our own part number if the product is not known in the industry under the Supplier's part number.

For example, we use 50-18M-20 for a 1/4" X 7/16" aluminum modified brazier head rivet.

Or we assign a two-letter prefix to a Supplier's part number if the product is known in the industry under the Supplier's part number.

For example, Truck-Lite's 10202R becomes TL-10202R.

We also use the two-letter prefix to group certain products together.

For example, drill bits (DB-) and light bulbs (LB-), generic air valves (AV-), generic replacements for Todco (GT-) and Whiting (GW-), or will-fit replacement parts for other makes of trailers: Dorsey (DO-), Fruehauf (FR-), Great Dane (GD-), Lufkin (LU-), Stoughton (SO-), Utility (UT-), and Wabash (WA-) among others.

Turn the page for two listings.

The first listing is sorted by the two-letter prefix.

The second listing is sorted by Supplier.

## Conversion Kit 700-512-11

For converting swing doors to roll-up doors.

Remove old swing doors; weld conversion corner posts and header; trailer is now ready for roll-up door installation.

Corner posts have added lip length to allow easier welding during installation.

10 gauge (.134) steel construction; plain finish.

Each kit includes two corner posts and one header.
